further.\n\nJust drop the full markup here, and I'll walk you through the extraction  
step-by-step.",  
      "reasoning": "The user says: `Extract the below given DOM : \n\n<input  
type=\"...\"`. Probably they want to extract the DOM element? The prompt is incomplete.  
Possibly they want to parse the HTML and extract something. The user gave partial: `<input  
type=\"`. Maybe they want to extract the DOM from a given snippet. Could be they want to  
output the DOM tree? Or they want to extract attributes? The request is ambiguous. We  
need to ask for clarification? But we can assume they want to extract the DOM element  
details. Since they gave incomplete snippet, we can ask for full snippet. But we can respond:  
`Sure, please provide the full HTML snippet.` However we can also guess they want to  
extract the DOM using JavaScript? Provide code to extract? Could be they want to extract  
the DOM element from a string. Provide a method using DOMParser.\n\nI'll respond asking  
for the full snippet."
