Test Case ID	Title	Category	Expected Result
▶ TC-001	Create new approval rule with valid data	Positive	The new rule is saved, appears in the rule list, and a success message 'Rule saved successfully' is displayed
▶ TC-002	Edit an existing approval rule with valid changes	Positive	The rule is updated, the changes are reflected in the list, and a success message 'Rule updated successfully' is displayed
▶ TC-003	Delete an existing approval rule	Positive	The rule is removed from the list and a success message 'Rule deleted successfully' is displayed
▶ TC-004	Attempt to create a rule with missing required approver field	Negative	The system prevents saving and displays a validation error 'Approver is required'
▶ TC-005	Enter an invalid (non-existent) Master ID	Negative	The system shows an error message 'Master ID not found' and does not create the rule

Feature: Masters Others Approval Setup

As a user, I want to masters others approval setup so that the related functionality works as expected.

Acceptance Criteria:

Given the system is operational, when the user performs the intended action, then the system should respond accurately and meet functional expectations.

Scenario: Create approval setup with valid data

Given Log in as an admin user

And Navigate to Masters Others Approval Setup page

And Click 'Add New Approval'

And Enter a unique approval name

And Select appropriate approvers from the list

And Set a valid numeric threshold value

And Enter a description within allowed length

Then Click 'Save' button

Test Data: Approval Name: "Quarterly Review", Approvers: [UserA, UserB], Threshold: 3,
Description: "Approval for quarterly financial review"

Scenario: Edit existing approval setup with valid changes

Given Log in as an admin user

And Navigate to Masters Others Approval Setup page

And Locate an existing approval entry

And Click the 'Edit' icon for that entry

And Modify the approver list and/or threshold

Then Click 'Update' button

Test Data: New Approvers: [UserC, UserD], New Threshold: 2

Scenario: Delete an existing approval setup

Given Log in as an admin user

And Navigate to Masters Others Approval Setup page

And Locate the approval entry to be removed

And Click the 'Delete' icon

Then Confirm the deletion in the popup dialog

Scenario: Attempt to create approval setup with missing required fields

Given Log in as an admin user

And Navigate to Masters Others Approval Setup page

And Click 'Add New Approval'

And Leave the approval name field blank

And Select approvers and set a threshold

Then Click 'Save' button

Scenario: Enter non-numeric value for threshold field

Given Log in as an admin user

And Navigate to Masters Others Approval Setup page

And Click 'Add New Approval'

And Enter a valid approval name

And Select approvers

And Enter "three" in the threshold field

Then Click 'Save' button

Scenario: Create approval with maximum allowed name length

Given Log in as an admin user

And Navigate to Masters Others Approval Setup page

And Click 'Add New Approval'

And Enter an approval name with exactly 100 characters

And Select approvers

And Set a valid threshold

Then Click 'Save' button

Test Data: Approval Name: 100-character string (e.g., "A" repeated 100 times)

Scenario: Create approval with special characters in description

Given Log in as an admin user

And Navigate to Masters Others Approval Setup page

And Click 'Add New Approval'

And Enter a valid approval name

And Select approvers

And Set a valid threshold

And Enter description containing special characters like !@#\$%^&*()_+{}|:"<>?

Then Click 'Save' button

Scenario: Non-admin user attempts to access Masters Others Approval Setup

Given Log in as a regular user without admin privileges

Then Attempt to navigate directly to the Masters Others Approval Setup URL

Scenario: Admin user accesses Masters Others Approval Setup page

Given Log in as an admin user

Then Navigate to Masters Others Approval Setup page via the main menu

Scenario: Attempt to create duplicate approval name

Given Log in as an admin user

And Navigate to Masters Others Approval Setup page

And Create a new approval with name "Annual Budget"

And Save successfully

And Create another approval with the same name "Annual Budget"

Then Click 'Save' button

Scenario: Page load performance for Masters Others Approval Setup

Given Log in as an admin user

Then Navigate to Masters Others Approval Setup page

Scenario: System handles concurrent creation of approval setups

Given Simulate 100 concurrent admin users each submitting a new approval setup with unique names

Then Monitor system response
